C & S's advanced service department has a dynamometer - a device which allows us to simulate road conditions, and solve driveability problems faster. Stop in and see us - you'll see why this dealership is different the moment you walk in. We won't bug you, but we will give you a flyswatter, just for walking through the door. That way, if you do want to shop around someplace else, you'll be able to defend yourself.

*Kim Camerlin's experience in the ski and restaurant industries has helped her to be a good listener - and to put herself in other people's shoes.*
