WORKING WITH MODERN MEMOIRS...

"Thanks again for the great job on the memoir. It turned out wonderfully...A pleasure to work with you."

Anne Ferguson, Professor

"We want to thank you for your enthusiasm, intelligence, insight and wonderful suggestions in making our [Celebration Book]. Your patience and excitement made it easy and joyous. Your understanding and the love you developed for us during this process were treasured throughout and helped us create this treasure for [name omitted] and all who love him."

Judith Sanders, Artist

"Working with Kitty is an absolute pleasure. Every time I ask questions, she has the right answers—she is smart. Every time I tell her my thoughts, she listens—she is sensitive and caring. Every time I ask for advice, she gives me good thoughts—she is intuitive. [Her] work is always splendid."

Jack Dunn, Author

"Kitty published and designed my small book of poetry. She did a beautiful job and was fun to work with. She has creative flair."

Nina D. Wood, Poet

"I have known Kitty for 27 years and know her to be skilled, sensitive, reliable and trustworthy...she is highly esteemed throughout the Pioneer Valley community."

Albey Reiner, Professor

"One of those rare editors who respects a writer's desire for truly free speech."

Al Giordano, Journalist

"“Since my Mother's death, I have been really adrift. I entered the [Bereavement Book] group feeling a lot of anger toward my Mother, focusing on our last 15 years...but working on my book gave me an anchor and focal point. I looked at her life and it allowed me to really *feel* the pain of her loss. It's been a wonderful experience for me!"
